in the evergreen **IT industry**

B.Tech. Computer Science & Engineering (CSE)

B.Tech. in Computer Science & Engineering (CSE) is one of the most dynamic and rapidly evolving branches of engineering, playing a vital role in driving innovation and digital transformation worldwide. The program focuses on the design, development, and application of computer systems and software technologies to the needs of businesses, organizations, and individuals in an increasingly digital world. The program curriculum combines theoretical foundations of computing with practical programming and software development skills, enabling students to design intelligent systems, develop scalable software, and solve real-world computational problems.

Computer Science & Engineering forms the foundation of several rapidly emerging technological domains, including Artificial Intelligence (AI), Machine Learning (ML), Big Data Analytics, Internet of Things (IoT), Cloud Computing, Blockchain Technology, and the Industry 4.0 revolution. The program emphasizes experiential and hands-on learning through well-equipped laboratories, technology-centric teaching pedagogy, industry-oriented projects, and internships.

The B.Tech. in Computer Science & Engineering (CSE) program is best suited for students with strong logical and analytical thinking who aspire to become full-stack software developers, technology innovators, and entrepreneurs by utilizing advanced computing technologies and AI/ML tools.

B.Tech. Artificial Intelligence & Machine Learning (AI & ML)

B.Tech. AI & ML is an emerging and highly demanding engineering program designed to equip students with the knowledge and skills required to develop intelligent systems that can learn, reason, and make decisions. The program focuses on building software capable of performing tasks that require human intelligence, such as learning from data, recognizing patterns, understanding language, and solving complex problems. The curriculum combines strong theoretical foundations in Computer Science & Engineering with extensive knowledge of Machine Learning, Deep Learning, Data Science, Natural Language Processing, Computer Vision and Intelligent Automation, which form the foundation of modern AI-driven applications.

Under the guidance of experienced faculty members, through well-equipped laboratories, AI-focused projects, and collaborations with technology industries, students gain practical exposure to modern AI tools, programming frameworks, and data-driven technologies. This integrated learning environment enables students to design and develop intelligent algorithms, predictive models, and smart applications.

The B.Tech. AI & ML program is ideal for students who possess strong mathematical and analytical abilities and aspire to develop intelligent systems and build careers as AI engineers, machine learning specialists, and data scientists using advanced AI and data-driven technologies.

Academic Excellence

- *Recognized for academic excellence, industry-oriented education, and strong placement record.*
- Highly qualified, experienced, and industry-connected faculty members with a blend of academic expertise and industry exposure.
- Focus on practical and hands-on learning.
- Cutting-edge laboratory infrastructure and computing facilities.
- Emphasis on strong theoretical foundations in computer science.
- Encourages application of knowledge through real-world technology projects.
- Mentorship bridges the gap between classroom learning and real-world technological challenges.
- Commitment to delivering relevant and up-to-date technical education and industry-ready skills.

Industry-Oriented Curriculum & Project-Based Learning Culture

- *Curriculum regularly updated to align with industry trends and emerging technologies.*
- Integration of professional skills, communication training, and interdisciplinary learning.
- Focus on developing both technical competence and professional confidence.
- Strong emphasis on “Learning by Doing” through project-based learning.
- Students actively participate in innovation activities and Special Interest Groups (SIGs).
- Collaborative development of technology solutions for real-world problems.
- Projects focused on emerging domains such as AI/ML, Data Science, Full-Stack Web Development.
- Encouragement to build intelligent, innovative, and socially relevant applications.

Earn While You Learn

- *The department promotes an entrepreneurial culture through its “Earn While You Learn” initiative, enabling students to transform their technical ideas into real-world digital products.*
- Students develop mobile applications and software solutions that are published on platforms such as Google Play Store and Apple App Store, creating opportunities to generate revenue while developing innovation, creativity, and business skills.
- The department also offers **Teaching Assistantship** opportunities to meritorious third- and fourth-year students, enabling them to deepen their technical knowledge, enhance their communication abilities, and gain valuable academic experience while earning financial support.

Strong Placement Support

- *Consistently excellent placement track record.*
- Comprehensive career preparation and placement training programs, which include Aptitude, Logical Reasoning, and Group Discussions.
- Mock interview sessions to prepare students for recruitment processes.
- Regular industry interaction and career guidance sessions.
- Placement Preparations offered by the department ensure students are well-prepared for successful careers in the global IT industry.

Key Faculties

Dr. Gopi B. Sanghani

Dean, Computer Science
Ph.D. (Machine Learning), M.E. (C.E.)
25 Years Experience

Dr. Gopi Sanghani has completed B.E. in Computer Engineering from DDIT Nadiad, M.E.(CE) from BVM Vallabh Vidyanagar and Ph.D. from Nirma University in the field of Text Mining using Machine Learning Techniques. She has contributed to executing various academic and administrative strategies to achieve departmental goals and initiatives. She has guided various research projects at both Under Graduate and Post Graduate Levels. She has published several International Conference and Journal Papers in the domain of Machine Learning & AI.

She successfully coordinated several workshops and training programs for students and faculties.
