preparing leaders proficient in **Management Fundamentals**

# Darshan Institute of Management

Management in the true sense is learned through application and experience. We at the Darshan Institute of Management believe in the merit of contemporary management education and imbibe it in our teaching-learning andragogy. We equip and empower our students through analytical, interpersonal, and managerial skills, along with industry-relevant knowledge. Darshan Institute of Management focuses on developing practical skills among students through industrial visits, workshops, trainings, guest sessions, and live projects. Apart from imparting program-specific skills, Darshan Institute of Management focuses on nurturing human values and character building.

## Vision

To develop innovative, ethical, and socially responsible business leaders equipped with managerial, analytical, and entrepreneurial skills, capable of making effective and sustainable decisions in dynamic business environments.

## Mission

- ★ To provide quality management education through innovative teaching-learning practices, experiential learning, and skill development that enhance employability.
- ★ To foster continuous learning, ethical behavior, entrepreneurship, intrapreneurship, and holistic development of students.
- ★ To build strong collaboration with industries, professional bodies, and academic partners for research, knowledge exchange, and sustainable career growth.
